Give your visuals wings A front-row view of major events in Cannes over many years has nourished Cannes Mandelieu Airport's taste for events and great visuals. In fact, the airport even opens its doors to professional event organisers and film and photography crews. It has created a dedicated department, **H16 Events**, to take care of you and help you with film and photo shoots, gala evenings, product launches, conventions and more. Such opportunities have already been seized by *Rolls-Royce, Infinity, Dior, Renault, Chopard, Mercedes, the fashion show for "Fashion for Relief", the Naomi Campbell's charitable organization, the TV crew from «Section de Recherches» (a French TV series) and the film Les aventures de Spirou et Fantasio...*

Film &
photo shoots

Events

Films, clips, ads, photo shoots: dreams come true...

H16 Events offers you the opportunity to use realistic or unique backdrops to bring your screenplay to life. We'll be by your side, assisting you to take over the tarmac, spaces within the terminal or on the curbside, one of the many hangars on the airport, or even our private port, a haven of peace in a natural setting, bordered with a hundred pleasure boats sharing the serene, lush green banks of Le Béal creek and the azure waters of the Mediterranean.

The choice is yours: buildings that are steeped in history, or futuristic constructions?

A shot of the control tower, runways or check-in desks, or a scene where a passenger boards or a plane lands, will make your film more convincing. The greenery, calm waters of the creek, bright blue skies and peaceful moorings will give your images that rustic touch. As for the jets, helicopters, vintage aircraft and limousines, they add a touch of luxury and glamour to your story.

Film & photo shoots

Events

Events: your journey into space...

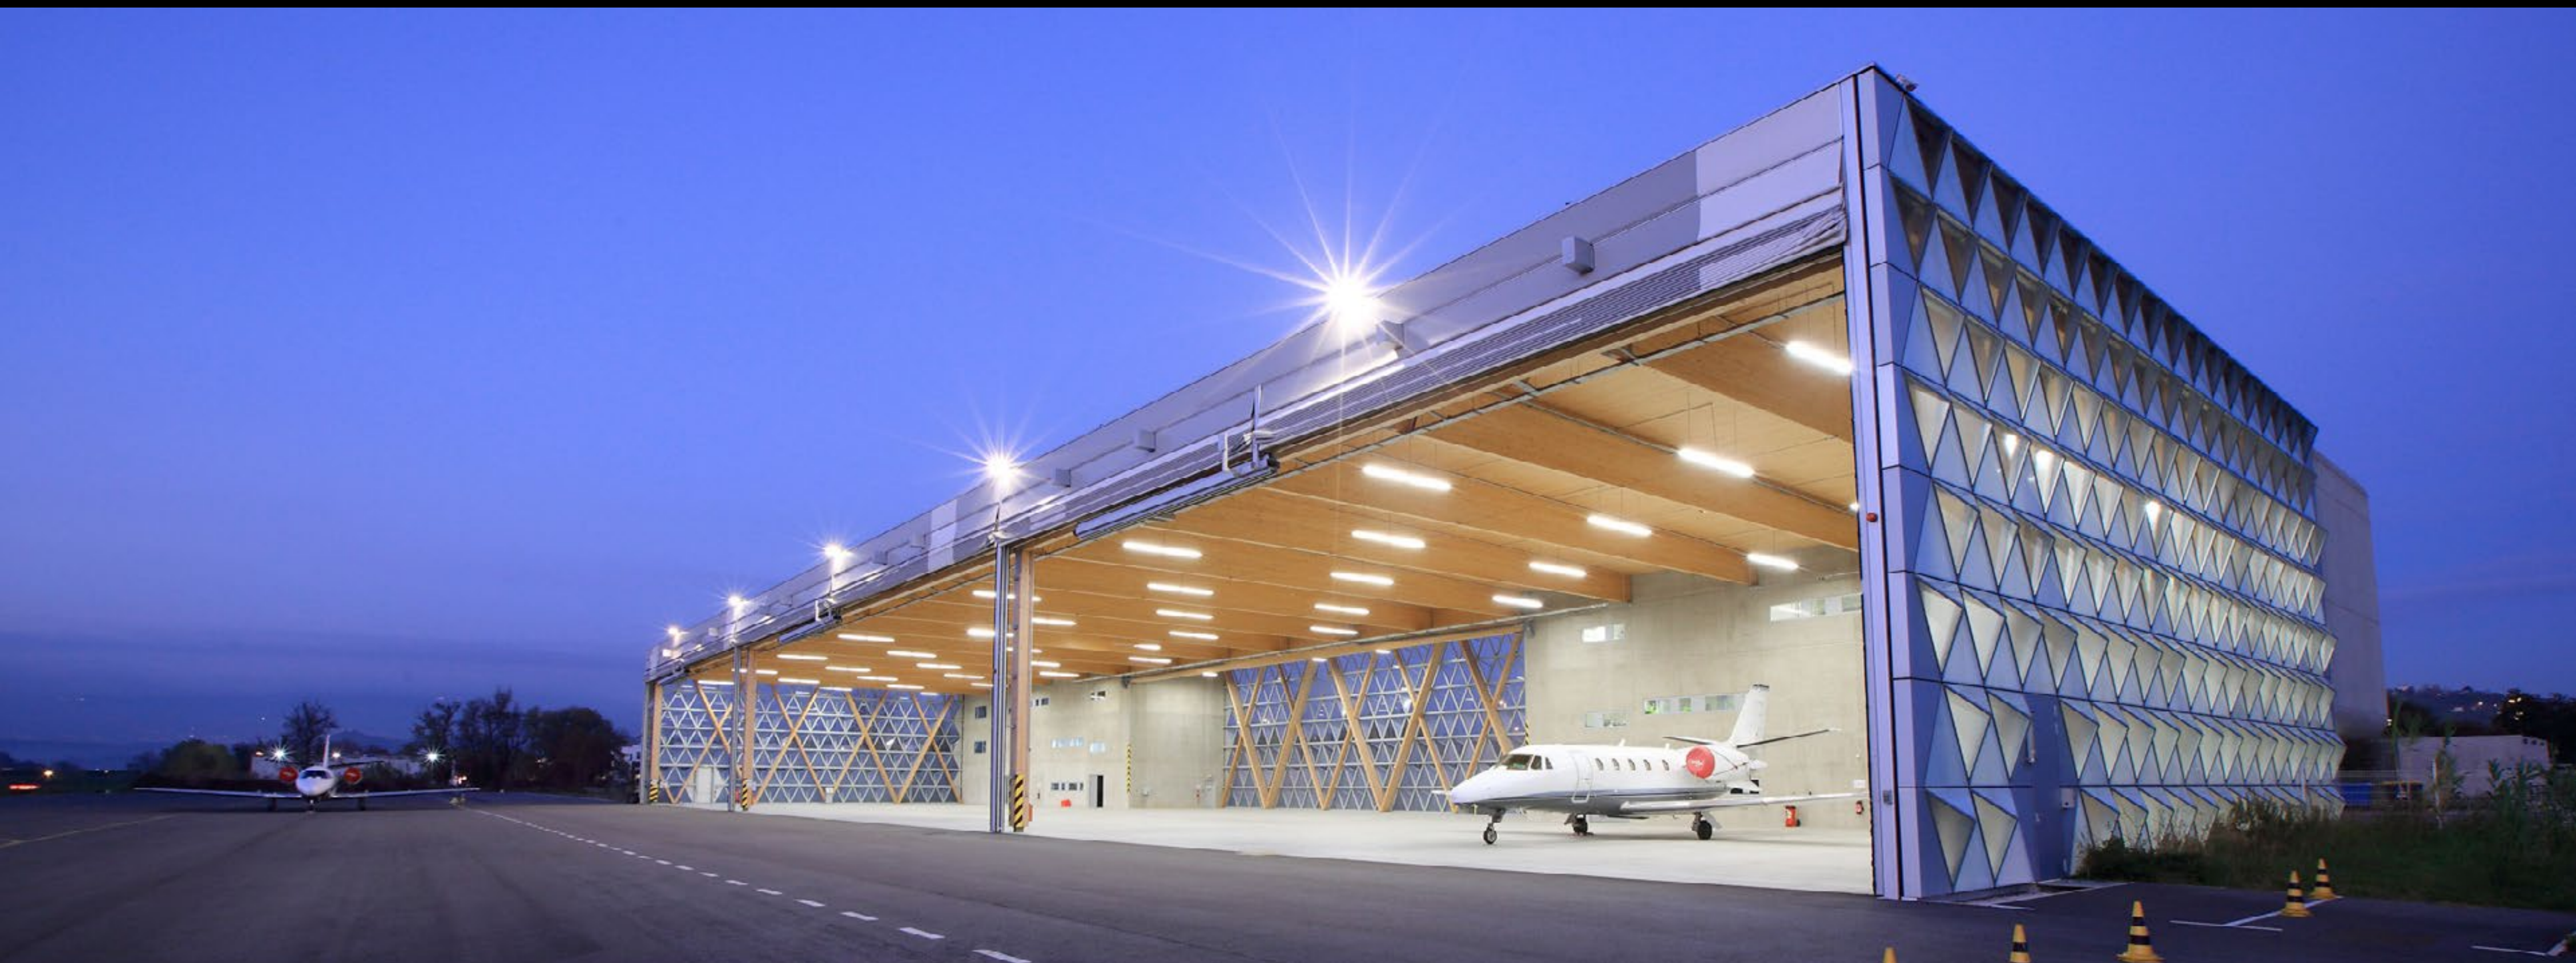

Organising a successful event requires imagination, energy, professionalism and... a venue that can carry it off. Such as Cannes Mandelieu Airport! This top of the range airport specialising in business aviation boasts plenty of space. Its most attractive features can be yours for a gala evening, a convention or a project launch.

- 22,000m² of hangars (from 200m² up to almost 3,000m²).
- Vast expanses within “vintage” or “designer” architecture.
- From a hundred or so participants up to several thousand.

Our infrastructures lend themselves to all types of daring design and creative staging – from bare minimalism to rich opulence.

Port abri du Béal

H16: a truly original backdrop for your project

Hangar 16 usually houses a handful of the most gorgeous aircraft based in Cannes. But it could also be the perfect setting for your amazing event.

Its strengths:

- Private road access.
- It opens onto a private aircraft parking area.
- Magnificent dimensions: almost 3,000m² of open floor, 9.5 metres from floor to ceiling. Hangar 16 can accommodate all types of exhibition fixtures and fittings as well as free-standing sets.
- Seamless design; plentiful light; a sleek silhouette that has won prestigious architecture prizes. Its trademark walls in wood and glass creating a superb honeycomb effect were inspired by the canvas-covered wing structure of the earliest flying machines.
- Huge sliding doors through which any type of exhibition fixture or stage set can pass.
- No noise or time restrictions. Stunning evenings can continue until dawn...

Different sizes for different needs

Cannes Mandelieu Airport is the home base of many private jets. They nestle within the walls of a dozen hangars, ranging in size from 200m² to 2,000m². These buildings can, on rare occasions, be hired for private events.

Hangar 14... This modern building offers 2,000m² of open floor. Its main features: beautiful wooden roof timbers, a wonderful pale stained floor, a high ceiling, natural daylight and easy access.

Hangar 12... A perfect square with each of its sides measuring 50 metres, a total surface area of 2,500 m². Another advantage of this surface area: an opening of spectacular dimensions with regards to both height and width. It promotes brightness across the sites and facilitates transport carrying the most cumbersome materials.

The Historical Hangars... They have so many stories to tell, with the oldest one dating back to the '30s. They all offer an amazing and slightly "retro" backdrop for a product presentation or for hosting a reception. «And the winner of the Palm for the most out-of-the-ordinary hangar is: Hangar 6» - home to several vintage aircraft including biplanes from the Roaring Twenties and fighter planes from the Second World War.

Filming and photography: ideal working conditions

Buildings, hangars, runways... various infrastructures at Cannes Mandelieu Airport can be used by media professionals for photo shoots and filming, either inside or outside.

- 20,000m² of tarmac can be cordoned off, right next to private jets.
- A whole range of locations such as: a flying club hangar, inside or outside the terminal building, a check-in desk, or a restaurant overlooking the runways.
- Easy and discreet access, security, round-the-clock availability.

H16 Events will contact the Authorities to gain runway access. We can also provide you with private lounges for make-up, costumes, dressing rooms...

Portabri du Béal

Port abri du Béal : the natural touch to your shoot

A river runs through it... The Port abri du Béal, both a river and sea harbour, created and managed by its next-door neighbour Cannes-Mandelieu Airport, offers you an original sailing atmosphere, as much a place for pleasure boating as for peace and quiet.

Set up your filming equipment, get out your camera and set your actors or models in motion on land or towards the open sea. Take advantage of the surroundings and a level of service that fully support your artistic work:

- A seafront marina on a human scale, which can be partially reserved for film shoots on the quays and on the water.
- A fully private river port within a very natural setting, where delightful days are spent immersed in a rustic atmosphere.
- Secure and confidential logistics and parking areas to accommodate your crews and all your equipment.
- A sailing centre with a number of activities, from water sports to boat hire, to support your operations and satisfy your creative desires.

The sky's the limit for your event Cannes Mandelieu Airport has a great reputation in the world of business aviation. A very demanding clientele of private jet passengers and crews values the staff's expertise and eagerness to help, as well as the airport's wide panel of very professional partners, its ideal location at the heart of the French Riviera, and easy access. These very same qualities will guarantee that your event is a success.

Our partners

The “Jet Experience”: quality service guaranteed

As the number 2 business aviation airport in France, Cannes Mandelieu Airport can offer exclusive advantages that guarantee the success of your event or shoot:

- 24/7 access to the site, 365 days a year.
- Substantial storage space for equipment and heavy vehicles.
- A large number of parking spaces.
- A wide range of hotels nearby.
- A dedicated contact at the airport: one person acts as the interface between you, the airport and the airport’s partners, assisting you efficiently until your project has been completed. Your contact’s name is Lætitia d’Oriano.
- Bilingual teams, whose members are trained to cater for top-class clients. They are driven by strong values such as being eager to help, thorough, fast to react and versatile.

At the heart of the French Riviera; a stone's throw from Cannes

Cannes Mandelieu Airport is one of the gateways into an outstanding region. The French Riviera has a glowing image, thanks to its sunny climate (300 days of sunshine a year), its Mediterranean landscapes, its elegant heritage, the abundance and diversity of its cultural activities and, last but not least, its lifestyle.

Our specific strengths:

- Located to the west of Cannes and very close to the Mediterranean Sea, Cannes Mandelieu Airport is easy to reach by road (including for buses and heavy goods vehicles), train (Cannes TGV station) and, naturally, air: it can handle the biggest private jets as well as twin-engine aircraft.
- Striking distance from legendary spots in and around Cannes: the Croisette, the Lérins Islands, traditional villages in the hinterland, golf courses...
- Nice Côte d'Azur Airport (with over 100 scheduled destinations) is just a few minutes away thanks to the Cannes-La Bocca motorway interchange. Monaco is just 45 minutes along that same A8 motorway.

Exclusive advantages

At the heart of the French Riviera

Our partners

The airport's ecosystem: the extra touch that makes all the difference

Cannes Mandelieu Airport has a veritable ecosystem to offer. With partner businesses right on site, everything you need is within arm's reach:

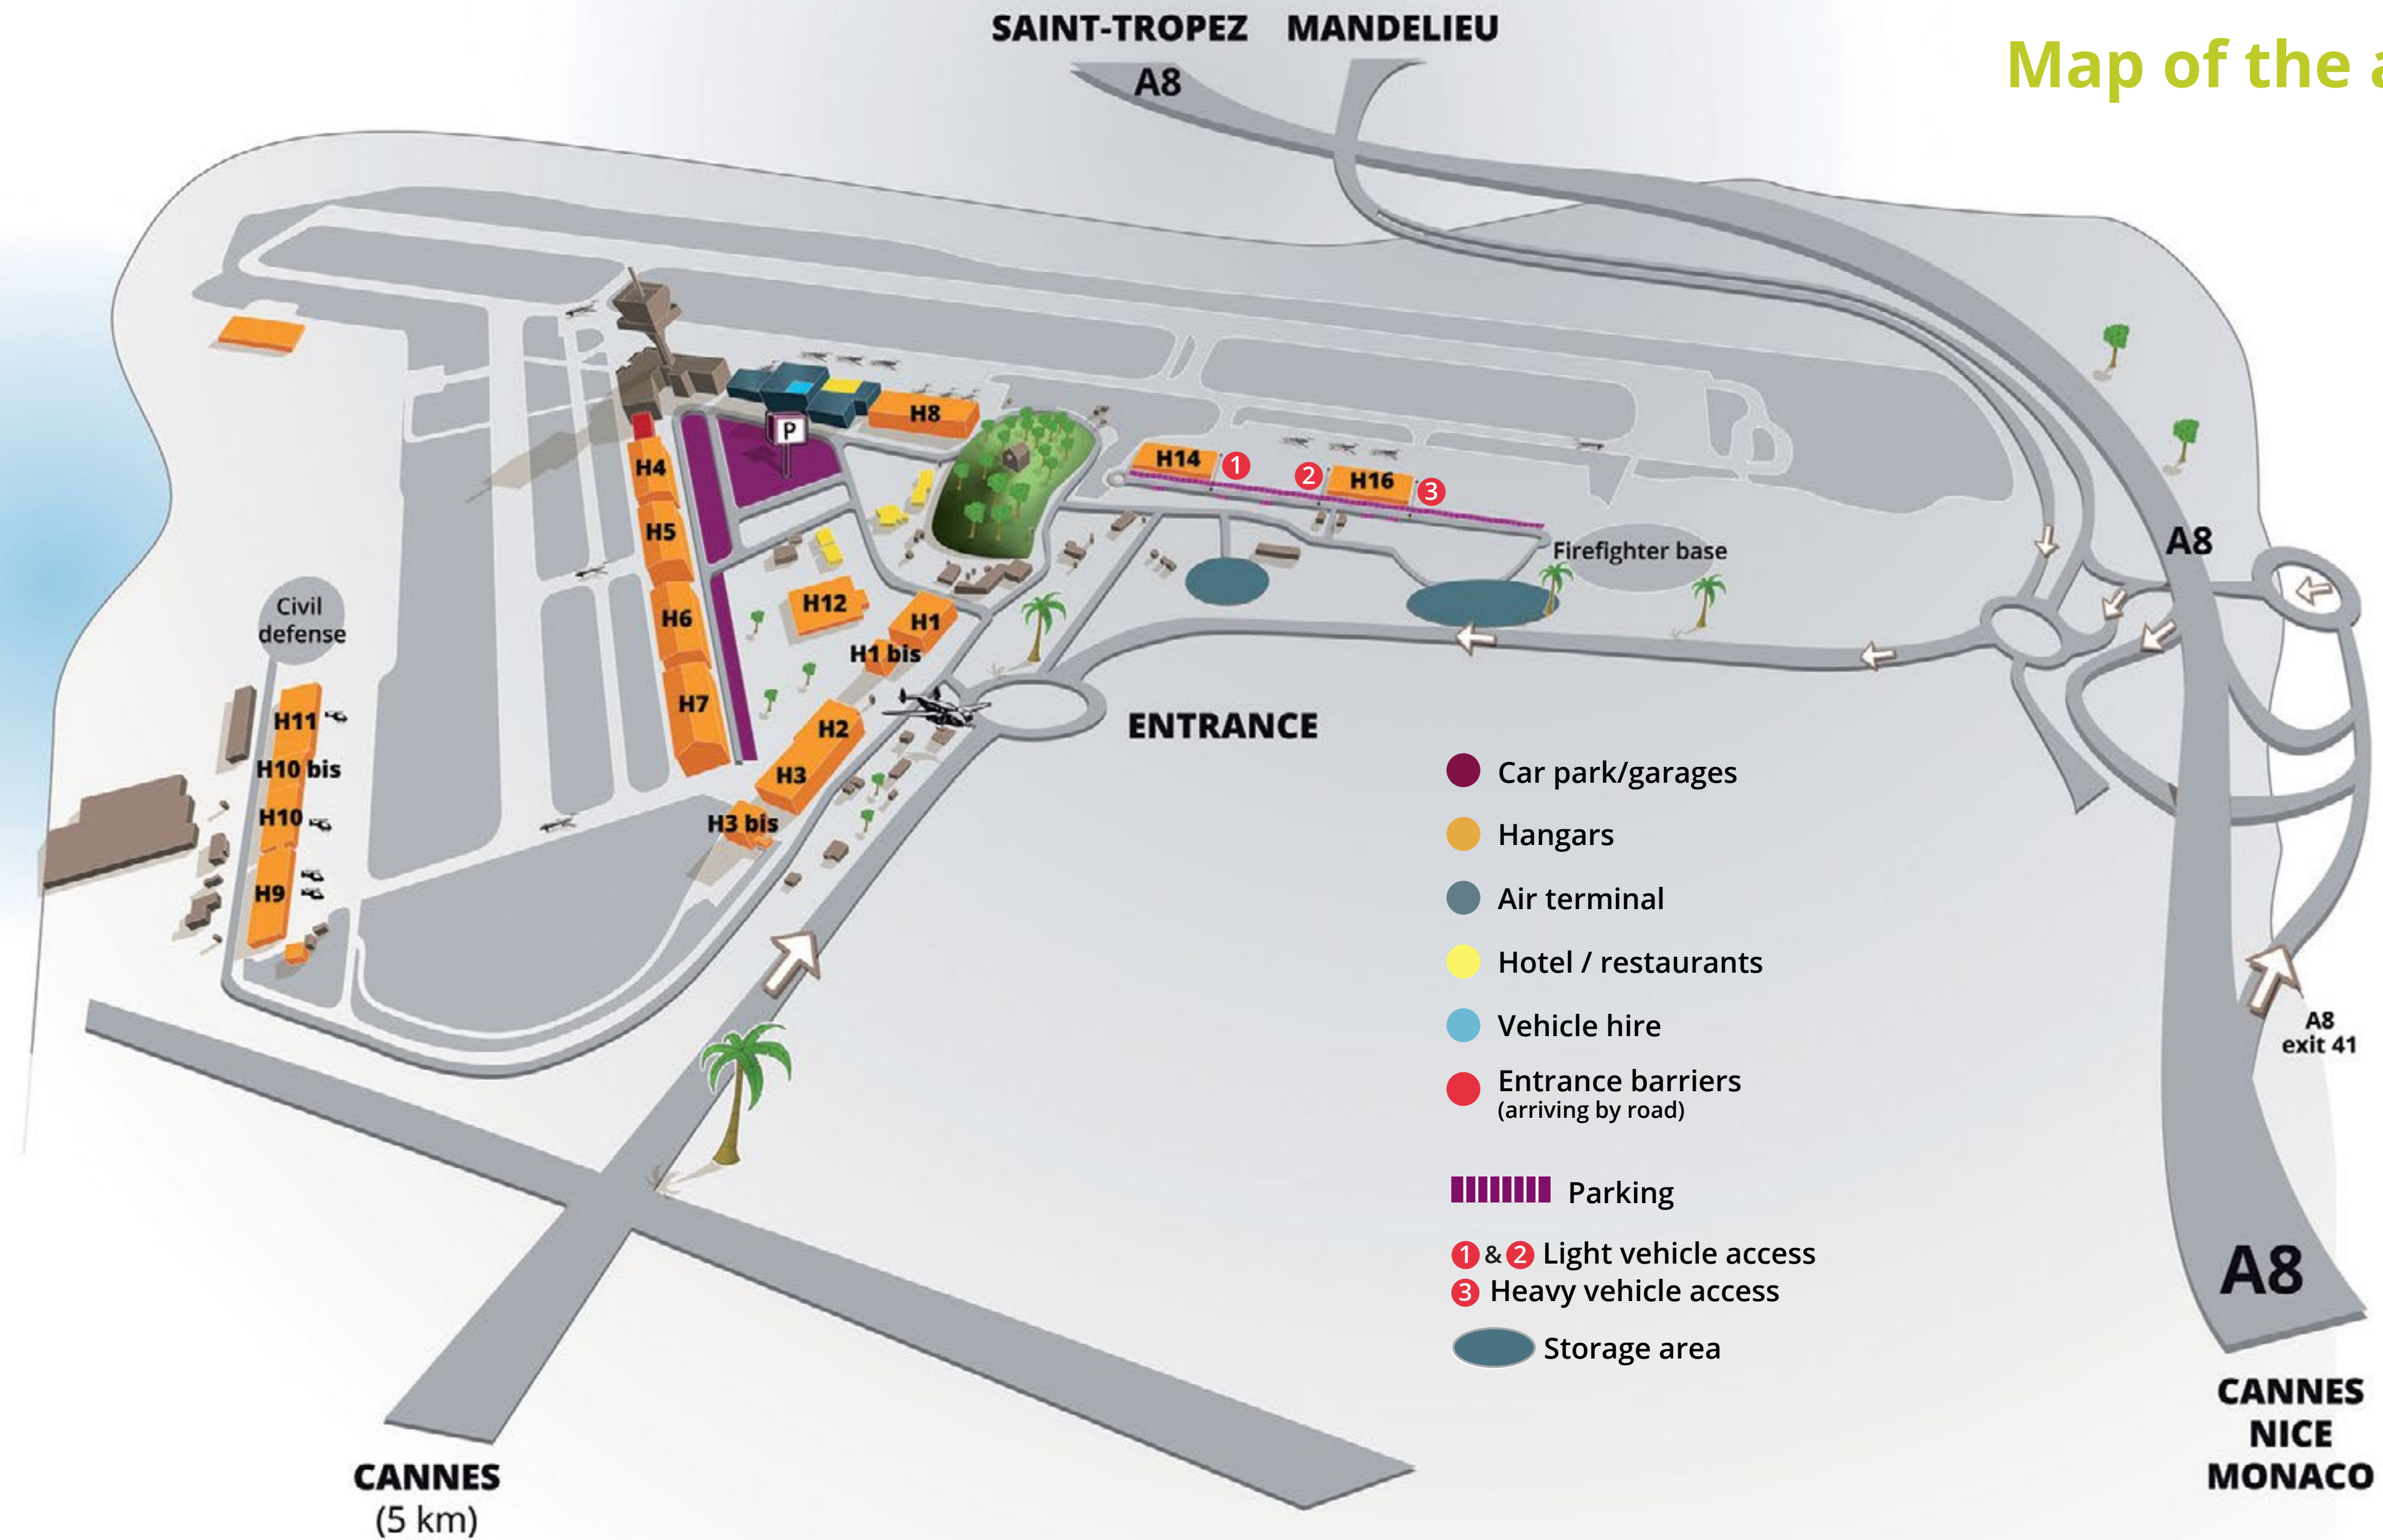

- A restaurant overlooking the runways for meals, cocktail receptions and coffee breaks. It also provides an excellent catering service.
- Two hotels (3- and 4-stars) with swimming pool to accommodate your teams.
- A photography/video studio with a 200-m² set.
- Vehicle hire: helicopters, limousines, cars with or without chauffeurs, either to be photographed or filmed, or to transport your VIP guests.
- For that extra dash of authenticity: an aeronautical antique specialist rents out vintage pieces for a few hours or a few days.
- Security companies that know the site inside out. Fire-fighting teams.

Prerequisites for organising your event

H16 Events are subject to the prior authorisation of the Aéroports de la Côte d'Azur SA (ACA), as sole concessionaire of the public aeronautic space of the Cannes Mandelieu Airport (domain of the State), subject to all laws, regulations, and policies in effect in said space.

As such, ACA reserves the right to refuse any event incompatible with the space, the interests of the concession (national and international airport, high-value-added business aviation activities), and/or current technical or operational conditions at the site.

Any company wishing to organise an event at the airport is therefore asked to contact [Lætitia d'Oriano](#) to verify the compatibility of their project and the availability of available spaces.

In all cases, interested companies are informed of the following:

- Event Duration: 30 days maximum
- Infrastructure capacity: all projects must receive prior approval from the firm governing the security commission
- Contractors: the client is free to choose its contractors. Only the firm governing the security commission and the hanger cleaning company are compulsory.
- Approval from police authorities: all activities must have prior authorisation from the relevant government agencies, which may be, according to each event: the Alpes-Maritimes Prefecture - Civil Aviation - Police and Customs.
